Schmitz Cargobull Mobile Service – what is it?

The Schmitz Cargobull Mobile Service brings maintenance and repairs directly to where your vehicle is located. This reduces down-time and keeps your fleet on the road, sup-porting trailers and transport refrigeration units of all brands.

Our service engineers offer maintenance, repairs, diagnostics and breakdown assistance.

Wherever you are our Mobile Service saves you valuable time and minimises downtime. We come directly to you and ensure your vehicles are back on the road quickly.

Our strengths? Speed, flexibility and the highest quality!

With Genuine Parts, Value Parts for cost-effective repairs and the expertise of trained service technicians, we deliver outstanding service quality. Available 24/7, our Cargobull Mobile Service provides fast and reliable support, even in emergency situations.

Stay ahead with proactive monitoring and efficient fleet management.

With TrailerConnect® telematics and FleetWatch, you can monitor trailers and refrigeration units in real time. Proactive monitoring, early alerts, and predictive maintenance planning help prevent breakdowns and cargo damage while maximising your fleet's uptime.

Schmitz Cargobull Mobile Service – FAQ

What products are eligible for Mobile Service?

Schmitz Cargobull Mobile Service performs maintenance and repair work on key trailer components, including refrigeration units, electrical systems, brakes, mechanical components, and tyres. Service is carried out directly at the vehicle's location, helping to keep trailers in excellent condition and ready for operation at all times. Available for trailers and transport refrigeration units of all brands.

And what about spare parts?

The mobile service fleet is restocked several times a week with spare parts sourced directly from the warehouses of Schmitz Cargobull's national subsidiaries. This ensures that every single van always has sufficient spare parts for on-site servicing and for Schmitz Cargobull customers. These are available in OEM quality as well as value parts at attractive prices for cost-effective repairs.

What added value does the Schmitz Cargobull Mobile Service offer?

Schmitz Cargobull's mobile service travels directly to the trailer and carries out repairs and maintenance on site. Thanks to TrailerConnect® telematics and FleetWatch, maintenance appointments for trailers can be planned in advance and repair histories can be viewed. FleetTrack also provides information on the fleet, vehicle status and the trailer's location.

Where is Schmitz Cargobull Mobile Service available?

The Schmitz Cargobull Mobile Service extends Schmitz Cargobull's Europe-wide Service Partner network. Following its successful launch in Germany, the service is being gradually rolled out to additional countries. Customers across Europe benefit from an expanded service offering and fast support delivered directly at the vehicle's location.

The Schmitz Cargobull Mobile Service Promise.

Schmitz Cargobull Mobile Service offers 24/7 availability and, through CARGOBULL EUROSERVICE, prioritised routeing of breakdowns directly to region-specific service vans. This ensures the fastest possible on-site response time and rapid trailer availability for Schmitz Cargobull customers. Thanks to the high level of technical expertise of the service technicians, vehicles are quickly back on the road. All this with full cost transparency and at fair, market-driven prices.

Schmitz Cargobull Mobile Service – A well-structured franchise

The Schmitz Cargobull Mobile Service is a franchise system comprising carefully selected partners who are comprehensively trained and qualified to ensure the highest standards in maintenance and repairs. These partners work closely with Schmitz Cargobull and benefit from direct support from the company. The organisation of the Mobile Service enables a flexible and rapid response to customer needs whilst maintaining a high standard of service quality.

Are you an automotive mechatronics technician, a passionate mechanic and a tech enthusiast?
Join our strong network!

The service technicians at Schmitz Cargobull Mobile Service are qualified specialists who have trained either as skilled workers or master craftsmen in automotive and commercial vehicle mechatronics and electrical systems. In addition, they have undergone specialist training in refrigeration and air-conditioning technology and are trained in the company's products through intensive courses run by Schmitz Cargobull. The technicians have access to a wide range of data and information, manuals and repair guides, ensuring they are always as well-informed and prepared as possible. With Schmitz Cargobull Mobile Service franchise model, we offer anyone wishing to take the step towards self-employment the opportunity to benefit from an established brand and comprehensive support. We will support you every step of the way so that we can make a successful start together.
