## Your own vehicle

### Hire purchase or payment by instalments, the traditional methods

Cargobull Finance. Your advantages from tailor-made financing:

- Monthly, constant instalments are calculable – or can be calculated.
- The total VAT amount can be made fiscally effective right at the beginning of the term.
- The vehicle is a part of your assets, with all the resultant advantages can be offset as an expense for tax purposes.
- The interest payments for the hire purchase payments or instalment payments.
- Your vehicle can be written off against tax.
- You own your vehicle at the end of the contract.

Cargobull Finance. You decide your own financing concept.

## Corporate manoeuvrability

### Leasing, the alternative financing

Cargobull Finance. Your advantages from an individual leasing concept:

- Leasing means you can make an investment without using your own capital.
- Liquidity safeguards your corporate manoeuvrability.
- You safeguard your credit line.
- Constant leasing instalments over the whole contract interval provide security, cost transparency and a sound basis for long-term planning.
- You can immediately offset your leasing instalments against tax.
- Your balance sheet ratios remain unchanged.
