SCS MEGA

VARIOS
TopTechnology

VARIOS® for the S.CS MEGA.
The right size – always.

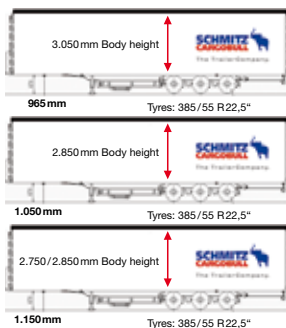

The VARIOS® height-adjustable version of the S.CS MEGA curtainsider means that your scheduling is flexible:

- Saves costs – the solution to all kinds of transport with only one trailer.
- Saves time – swap between 965 mm – 1150 mm tractors and transport a large variety of goods by simply changing the trucks.
- Saves empty runs – the variable body height allows the dispatcher to schedule cargoes of up to 100m³.

just more.

Optimal: the VARIOS® height-adjustable body keeps the trailer to a total height of 4 m.

Easy: the body height can be varied in increments of 50 mm with a connector system both at the front and the rear independently from each other.

At the front. Rapidly adjustable internal height ranging from 2.75 to 3.05 mm with six different connector options.

At the rear. Three heights in a connector latching system. The tailgate adapts itself to the various heights.

Variable. A trailer for fifth-wheel heights ranging from 965 to 1,150 mm – thanks to our MRH air suspension.

Safe. With a TÜV certificate for “certified cargo shift protection”. Structural rigidity conforms to EN 12642 (Code XL).
