

The semi-trailer curtainsider S.CS MEGA X-TOUGH

Maximum volume meets maximum robustness.

Are you looking for a solution for bulky, heavy and voluminous goods? Then the curtainsider S.CS MEGA X-TOUGH is the right choice. The robust X-TOUGH chassis meets the volume concept of the S.CS MEGA – for demanding transport tasks with maximum efficiency.

Why is the S.CS MEGA X-TOUGH the best solution for you?

The extra-strong X-TOUGH chassis with 9.5t floor load capacity ex works and a low neck height enable the transport of heavy and voluminous goods.

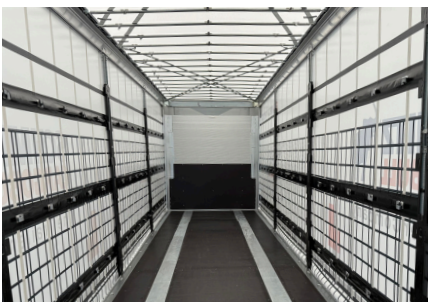

X-TOUGH chassis with high bending and torsional strength for 44t or more

The bolted, galvanised X-TOUGH chassis impresses with its high bending and torsional strength, long service life and maximum load capacity. With the offset according to ISO 1726-1, cross beam spacing of a maximum of 400mm and high forklift strength, it is optimally designed for demanding transport tasks.

9.5t floor load capacity

The robust 30mm plywood floor has been specially designed for frequent operation by heavy forklifts and offers high load capacity in daily use.

Up to 100m³ loading volume

The interior height of up to 3,000mm enables optimal use of the loading space for high and voluminous goods.

High-volume.
Resilient. Flexible.

The S.CS MEGA X-TOUGH combines maximum volume utilisation with high load capacity and robust construction. Ideal for paper rolls, batteries, beverages, metal products or other heavy and large-format goods.

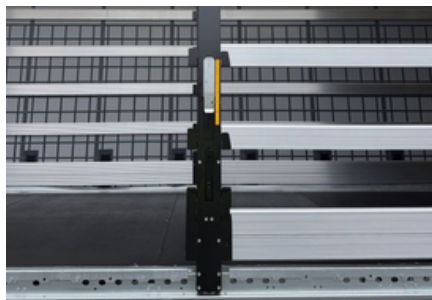

The **galvanised cross-beam chassis** with a standard 9.5t floor load capacity impresses with its high corrosion resistance, long service life and maximum load capacity during demanding loading processes with heavy forklifts.

POWER CURTAIN PLUS built with **OXO*** body enables the safe loading of goods that are not dimensionally stable, such as tyres, without the need for loose components such as top slats or other additional securing elements.

The **POWER CURTAIN*** and **SPEED CURTAIN*** body variants enable fast, safe and time-saving loading and unloading.

The **Schmitz Cargobull center section** enables faster workflows and easier handling.

The **height-adjustable VARIOS*** body variant offers maximum flexibility for a wide range of transport applications. The internal height can be adjusted to suit individual requirements in just a few simple steps, without the need for a workshop visit. Thanks to the 7 x 50mm or 4 x 50mm height adjustment, it can be used flexibly with Lowliner and standard tractor units.

The **Schmitz Cargobull INOX BOX*** offers secure, lockable and watertight storage space for load securing equipment and foodstuffs.

* Option

Flexible in heavy-duty and volume transport.

As a strong partner for your success, we provide you with transport solutions and services that you can rely on, for greater cost-effectiveness, efficiency and transparency in your fleet and along the supply chain.

Ex works in every
S.CS MEGA X-TOUGH

With **TrailerConnect® telematics**, you get real-time data for more transparency and efficiency in your fleet and supply chain. In the TrailerConnect® Portal, you can centrally manage all the telematics data of your fleet – regardless of manufacturer – on one platform.

This means efficient fleet management, intelligent dispatching, higher trailer availability and effective processes.

With **Proactive Monitoring** for Trailers, you can plan maintenance appointments in advance and ensure maximum uptime.

The **TrailerConnect® tyre pressure monitoring system with Autolearn** automatically detects and learns newly installed sensors, assigns them to the correct tyre position and records tyre pressure and tyre temperature data.

Service Contracts

Increase your uptime, create cost transparency and reduce your workload through service contracts for trailers and tyres with: Basic Service Trailer*, Full Service Trailer*, Full Service Tyres*, Full Service Retread Tyres*.

You can rely on this:
