Your advantages:

-  Significant reduction in workload and focus on core business
-  Increased uptime of your fleet

-  Lower life cycle costs of the trailer
-  High value retention of the trailer

This is included for you:

- Replacement of tyres when **worn** and **assistance in the event of a breakdown**
- Schmitz Cargobull takes care of all handling processes and invoice verification
- Constant **monthly payment** over the agreed contract term
- **Digital vehicle file** in real time for efficient management of vehicle data
- Available for new and used vehicles, as well as third-party makes
- Also available with **replacement in the event of damage** caused by sharp objects

Good to know:

High-quality retreaded tires can achieve the **same mileage** as new tires. Full Service Retread Tyres is currently available for customers in DE and HU. Other countries on request.

Highlights:

Resource savings through retreaded tires:
-70% crude oil
-80% water
-50% energy
-30% CO₂
