

100% SMART ex works

The TrailerConnect® telematics system is on board every S.CS FREEPOST curtainsider semi-trailer.

All S.CS FREEPOST curtainsiders are equipped with **TrailerConnect® telematics** as standard. You have immediate access to the Schmitz Cargobull telematics portal and apps **beSmart** and **beUpToDate**.

The benefits are:

- **Efficient fleet management** with real-time information on the actual state of the fleet for your planning.
- **Intelligent dispatching** that optimises tours and on-time delivery while avoiding empty runs.
- **Increased trailer availability** - proactive maintenance minimises downtime and breakdown.
- **Reduction of process costs** for trailer utilisation and staff deployment.

The Trailer Company.

One-Stop Solution Premium Services from Schmitz Cargobull

S.CS FREEPOST Curtainsider Semi-Trailer

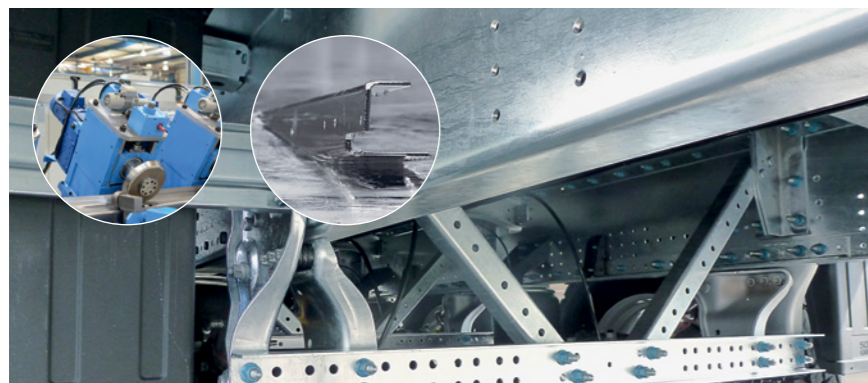

Certified according to DIN EN 12642 Code XL, pillarless design especially for UK and Ireland

- Flexible load securing: Continuous lashing holes and optionally 16 pairs of lashing rings 4t
- Free side loading without sliding posts
- 100% SMART - Telematics TrailerConnect® CTU is standard ex works. Hardware and basic service can be used immediately
- DIN EN 12642 Code XL certified
- Effective theft protection thanks to standard curtain with steel wire-reinforced belts
- Tried and tested ROTOS axle unit with disc brakes for increased safety and low overall costs

S.CS-FREEPOST-FLY-DEEN-10612-4522 Subject to change without notice. Illustrations partly with optional equipment.

Rolled, galvanised MODULOS chassis - robust, durable and retains its value with low total cost of ownership. Particularly easy to maintain due to bolted and screwed connections. and with a 10-year warranty against rust-through. Hot-dip galvanising offers excellent corrosion protection as well as unmixed recycling.

ROTOS axles with disc brakes for high road safety and lower total cost of ownership. Six-year warranty on hub and tube.

Aluminium roof with galvanised steel outer rail and various load securing options for a lateral loading height of up to 3,200 mm.

Fully certified structure according to DIN EN 12642 Code XL. High security of the goods through integrated theft protection in the curtain.

Flexible load securing with continuous lashing holes in the side and optional 16 pairs of 4 t lashing rings.

S.CS FREEPOST

Pillarless for easy side loading

TrailerConnect® Telematics System

CTU control unit, activation and basic contract included ex works**

Schmitz Cargobull aluminium roof

Structural stiffness certified according to DIN EN 12642 Code XL

LED lights* with lower risk of failure

Rolled, galvanised MODULOS chassis

ROTOS chassis: 1 million km warranty

The right body height for every transport application: available in heights of 4,200 mm, 4,400 mm, 4,600 mm and 4,800 mm.

To facilitate unloading, the curtain can be tensioned **from both the front and the rear**.

For more safety - underide protection according to ECE regulation 58.03. The forces to be absorbed have almost doubled to 18t.

Load securing straps with lashing eyes on the outside or inside centre on both sides prevent the load from slipping.

Schmitz Cargobull Susi-Rail® - Safe operation of the light and brake connections thanks to a connection bar that can be pulled out to the side, simplifying and speeding up handling.

The curtain tensioner and the door lock are easy and safe to operate and increase the safety of the driver in everyday life.
