

The S.CF LIGHT 40/45 container chassis

# Robust and payload-optimised for the transport of 40' and 45' containers

Are you looking for a robust solution for challenging container transport tasks? The weight-optimised container chassis offers you transport options for 40' and 45' containers with tunnel. Increased payload meets lower fuel consumption.

# Why is the S.CF LIGHT 40/45 the best solution for you?

The S.CF LIGHT 40/45 semi-trailer container chassis transports 40' tunnel and 45' containers. The LIGHT chassis enable a higher payload, lower fuel consumption and an optimised cost-benefit ratio.

Optimised payload and greater economy

The diagonally braced chassis is payload and weight-optimised. The S.CF LIGHT 40/45 therefore enables a higher payload with lower fuel consumption.

Simple handling meets innovative operating concept

The new telescopic underride guard at the rear and the mechanical front extension enable easy handling. The simplified user guidance impresses with clear instructions.

Longer service life and lower total cost of ownership

The galvanised\* chassis made of open high-strength steel profiles offers optimum protection against corrosion. The chassis is more durable, retains its value and reduces maintenance costs. Two pairs of ferry lashings make transport safe.

\*optional

Simple, flexible,  
robust.

Improved technology, optimised handling  
and additional functions make the new  
generation of container chassis a durable  
partner for any transport task.

**PIN locking** against twisting on two pairs of container beams as standard locking.

Easily replaceable **container guides** for containers on the front beam.

Click or scan  
For detailed  
information on  
the equipment

New design: **Extendable underride guard** for 45' containers is easier and safer to handle with no easy to lose, loose parts.

**New operating concept** with loading plan and clear function and warning notices on locks and extensions.

**New labelling** on locks and extensions for reliable identification of the different loading positions, supported by a loading plan and operating videos via QR code.

# Intermodal transport, customised and well thought out.

As a strong partner for your success, we provide you with transport solutions and services you can rely on, for greater economy, efficiency and transparency in your fleet and along the supply chain.

## TrailerConnect® telematics

With every S.CF LIGHT 40/45 ex works

For efficient fleet management, intelligent scheduling and the reduction of your process costs. Including access to the telematics portal and the beSmart and beUpToDate apps.

## Integrated tyre pressure monitoring system

With every S.CF LIGHT 40/45 ex works

The correct tyre pressure reduces tyre wear and lowers fuel costs due to better rolling resistance. Our trailers are equipped with TPMS sensors and TrailerConnect® control unit as standard.

You can rely on:

## The Schmitz Cargobull premium services and the competent partner network.

- Customised financing and insurance from industry professionals
- TrailerConnect® Telematics and Digital Services for Smart Logistics
- Second Hand – First Class Used in tested quality
- Spare parts that pay off, for the time value fair repair
- Full Service for trailer, cooling unit and tyres
- Order Genuine Spare Parts online, delivery within 24h
- 1,400 Service Partners - your specialist workshop network
- 24h Cargobull Euroservice assistance across Europe
