

Intelligent transport solutions and premium services

Individual transport solutions
The right trailer for every transport for a wide range of applications – from box vehicles for temperature-controlled transport to swap-body systems.

Financial Services
Customised financing offer with attractive conditions for the entire life cycle of your investment.

Insurance
Customised by industry professionals: from legal protection and liability to fully comprehensive and partial cover to fleet insurance at a preferential rate.

1,400 service partners
Your specialist workshop for maintenance and repairs. Maximum uptime thanks to a well-developed network of service partners throughout Europe.

Acquisition

Utilisation

Valuation and sales

Full Service
Maximum availability, predictable costs and efficient processing with customised service contracts covering trailers, cooling units and tyres.

24h Cargobull Euroservice
Europe-wide 24/7 breakdown service with Schmitz Cargobull Euroservice.

Original spare parts within 24h
Impressive spare parts availability, helping to minimise unnecessary downtime.

Second Hand – First Class
Reliable used vehicles, perfect for supporting peak workloads.

TrailerConnect® - the platform for efficient fleet management

FleetTrack

- Clear dashboard with real-time trailer data
- Fleet monitoring and control of individual trailer components
- Evaluation options, automated reporting and alarms

Data Management Center

- Consolidation of all telematics systems and data on one platform - across all manufacturers
- Customised and secure transfer of data
- Maximum control and transparency

FleetWatch

- Dashboard to view the status of all trailers and cooling units at any time (24/7)
- Overview of the fleet's maintenance requirements and simplified maintenance and repair planning
- Early detection of problems and corresponding recommendations for action

TourTrack

- Targeted and selected data forwarding for each tour
- Tour-based real-time monitoring including estimated time of arrival
- Automatic generation of order-related temperature reports

Delivering Performance.

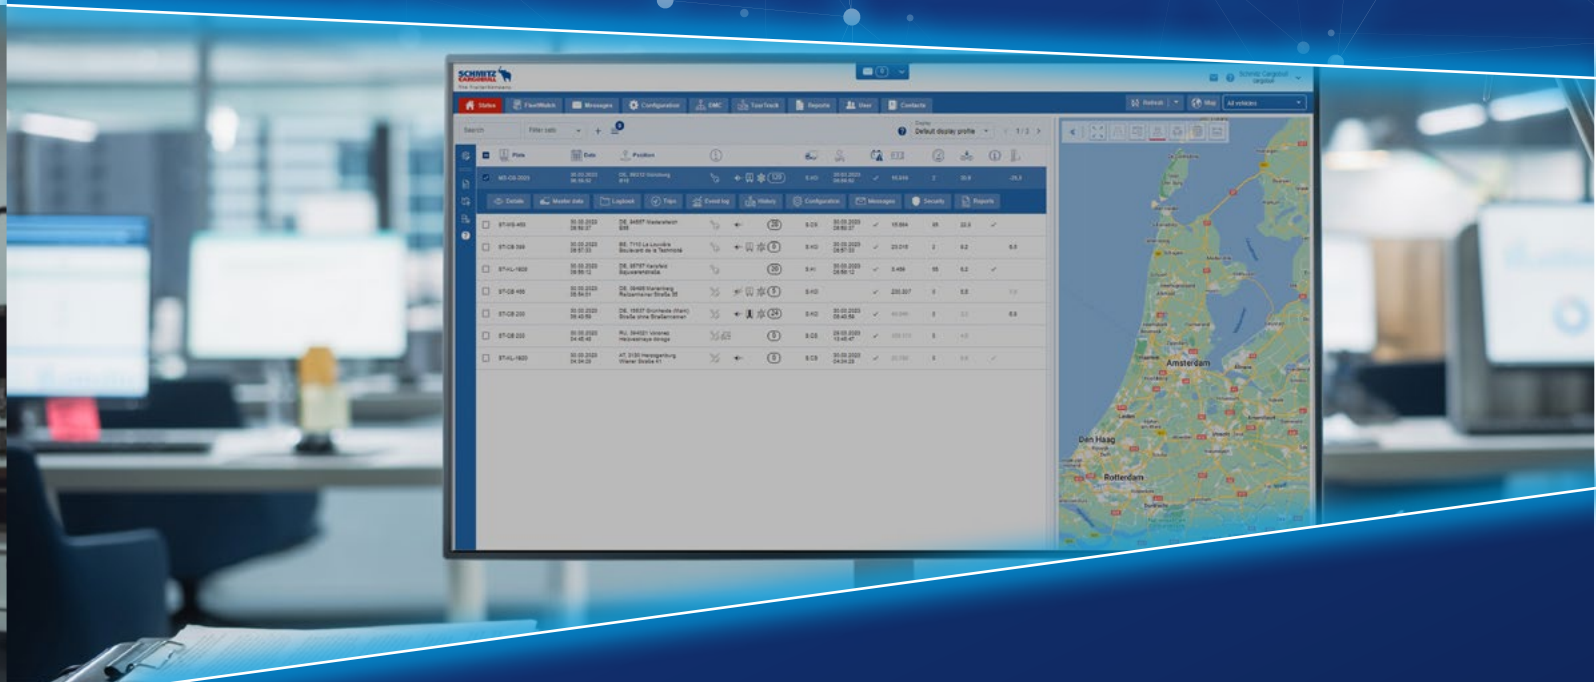

Transport solutions for strong fleet performance

These are smart trailers and services for greater economy, efficiency and transparency in your fleet and along the supply chain.

Operating costs firmly under control

- Parts for the time value fair repair of your vehicles.
- Operating costs firmly under control with parts that pay off.
- Tested Schmitz Cargobull quality at attractive conditions.

Delivering Performance.

Transport solutions with added value.

Intermodal transport

Robust and flexible: the S.CF ALLROUND 20-45 container chassis.

- For container sizes from 20' to 45'.
- **Simple operation:** identification drawings, loading plans, clear function and warning instructions as well as explanatory videos via QR code.
- **Equipped with TrailerConnect® telematics ex works** for efficient fleet management.
- Can be equipped ex works with **branded generator set for constant power supply** to refrigerated containers for temperature-controlled transport.

Dry freight transport

Safe and fast: the S.BO EXPRESS dry freight semi-trailer.

- For the **courier, express and parcel service (CEP)**.
- With the new **Schmitz Cargobull roller shutter**, the lightest on the market with Code XL certification in accordance with EN12642.
- **More safety and protection:** extended floor plate, heavy-duty rear package, improved lighting with LED strips inside and upper marker lights.
- Ex works with TrailerConnect® telematics for **pro-active monitoring**.
- Maximum transparency: **load carrier tracking** integrated in TrailerConnect® telematics ex works.

Agriculture & construction transport

Robust and smart: S.KI SOLID tipper semi-trailer.

- **Robust solution with increased payload and high stability.**
- **Safe and easy to operate:** wireless body and reversing camera, tilt angle warning system, pneumatic underride guard with reset-to-ride function, electric sliding roof, onboard weighing system.
- **Maximum transparency:** ex works with TrailerConnect® telematics.

General Cargo Transport

Payload-optimised and flexible: S.CS MEGA curtainsider semi-trailer for combined transport.

- **Optional equipment** for rail loading and ferry transport.
- **Optimised chassis:** can be combined with any tractor unit – including electric ones.
- **Higher payload** thanks to new MRH4 air suspension (multi-ride height).
- **For fast and safe loading and unloading:** optional slatless POWER CURTAIN body.
- **More safety and protection:** Heavy Duty Rear Package, improved lighting with LED strips inside, door contact sensor.
- **Maximum transparency:** ex works with TrailerConnect® telematics.

Transport cooling units

Cooling that suits your needs.

- **NEW – S.CU dc85:** modern diesel common rail technology for maximum efficiency.
- **S.CU d80:** proven, robust, emission-optimised diesel engine for every market (especially for markets with low diesel quality).
- **NEW – ePTO ready:** interface to the electric power take-off (ePTO) of the electric tractor unit. For purely electric cooling and maximum flexibility in mixed fleets – regardless of drive type and tractor unit manufacturer.
- **S.CU ep85:** emission-free cooling unit with innovative and long-lasting battery technology.
- **655 MT HYBRID:** modern diesel common rail technology including DOC (diesel oxidation catalytic converter) from Cargobull North America. Meets the strict requirements of the California Air Resources Board (CARB).

Digital Services & Service Solutions

Your daily transport routine – more efficient and easier to plan.

- TrailerConnect® telematics: **transport data from all manufacturers at a glance** in the TrailerConnect® portal or in the apps.
- **More uptime for cooling units and trailers** with Proactive Monitoring.
- Predictive Maintenance: **react early** and plan maintenance for cooling units in the future **with foresight**.
- TrailerConnect® **tyre pressure monitoring system with autolocation** for higher trailer availability and effective processes.
- Always safe on the road: **over 1,400 service partners, 24/7 breakdown service and spare parts deliveries within 24 hours.**
- **Transparent and efficient collaboration** in the supply chain with TrailerConnect® Data Management Center and TourTrack.

Emission-free refrigerated transport

Fully electric semi-trailer S.KOe COOL with electric cooling unit S.CUep85.

- **Emission-free:** Type-approved fully electric semi-trailer with electric cooling unit, generator axle and high-voltage battery.
- **Super quiet:** Silent kit and multifunctional floor with PIEK certification.
- Best possible **insulation** ex works thanks to FERROPLAST® body.
- **TAPA* ready:** certification in accordance with the latest requirements.
- Cold chain always under control: with **TrailerConnect® telematics** ex works.

*TAPA = Transported Asset Protection Association

Emission-free food logistics

Agile and efficient: fully electric semi-trailer S.KOe CITY.

- **Sustainable and quiet in the city centre:** electric cooling unit, generator axle and high-voltage battery.
- **Perfect for narrow streets:** shortest S.KOe CITY variant.
- **Maneuverable and economical:** steering axle with mechanical forced steering.
- **Efficient and safe:** non-slip airline floor including robust carriers, secure load anchoring and electric roller shutter with ATP FRC certification.
- **Cold chain always under control:** with TrailerConnect® telematics ex works.
