

Mobile Service

Comprehensive vehicle maintenance and servicing on site.

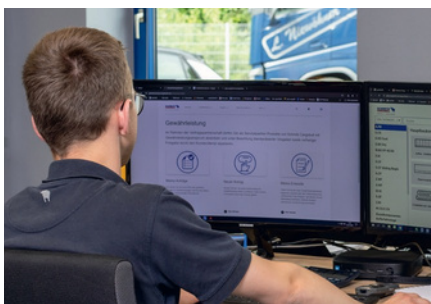

Schmitz Cargobull Mobile Service – what is it?

Discover the Schmitz Cargobull Mobile Service – Your solution for comprehensive on-site vehicle support!

Our service engineers offer maintenance, repairs, diagnostics and breakdown assistance.

Wherever you are: our service saves you valuable time and minimises downtime. We come directly to you and ensure your vehicles are back on the road quickly.

Our strengths? Speed, flexibility and the highest quality!

We use genuine parts and trained service engineers to guarantee first-class service. Our mobile service is available 24 hours a day, so you can get help quickly, even in emergencies.

Take advantage of our digital services such as TrailerConnect®.

This allows you to plan your maintenance appointments effectively, improve operational processes and boost your efficiency. Experience the perfect combination of flexibility, quality and direct customer support with Schmitz Cargobull Mobile Service.

Schmitz Cargobull Mobile Service – FAQ

What products are eligible for Mobile Service?

Schmitz Cargobull's Mobile Service offers a comprehensive range of services to ensure the functionality and safety of the trailers. It covers all key components, from the refrigeration unit, through to the electrical and mechanical systems and brakes (both general and specific), right down to the tyres. This ensures that the trailers are always in perfect condition and ready for use at any time.

And what about spare parts?

The mobile service fleet is restocked several times a week with spare parts sourced directly from the warehouses of Schmitz Cargobull's national subsidiaries. This ensures that every single van always has sufficient spare parts for on-site servicing and for Schmitz Cargobull customers. These are available in OEM quality as well as value parts at attractive prices for cost-effective repairs.

What added value does the Schmitz Cargobull Mobile Service offer?

Schmitz Cargobull's mobile service travels directly to the trailer and carries out repairs and maintenance on site. Thanks to TrailerConnect® telematics and FleetWatch, maintenance appointments for trailers can be planned in advance and repair histories can be viewed. FleetTrack also provides information on the fleet, vehicle status and the trailer's location.

Where is Schmitz Cargobull Mobile Service available?

The Schmitz Cargobull Mobile Service expands Schmitz Cargobull's existing Europe-wide service partner network. The first vehicles have been in operation in Germany since June 2025. In 2026, the service will be further expanded in Germany and subsequently extended to other European countries.

The Schmitz Cargobull Mobile Service Promise.

Schmitz Cargobull Mobile Service offers 24/7 availability and, through CARGOBULL EUROSERVICE, prioritised routing of breakdowns directly to region-specific service vans. This ensures the fastest possible on-site response time and rapid trailer availability for Schmitz Cargobull customers. Thanks to the high level of technical expertise of the service technicians, vehicles are quickly back on the road. All this with full cost transparency and at fair, market-driven prices.

Schmitz Cargobull Mobile Service – A well-structured franchise

Are you an automotive mechatronics technician, a passionate mechanic and a tech enthusiast?

Join our strong network!

The Schmitz Cargobull Mobile Service is a franchise system comprising carefully selected partners who are comprehensively trained and qualified to ensure the highest standards in maintenance and repairs. These partners work closely with Schmitz Cargobull and benefit from close and direct support from the company. In addition, there are partnerships, such as with Fleetloop GmbH, which help to ensure that the service is comprehensive and efficient. The organisation of the Mobile Service enables a flexible and rapid response to customer needs whilst maintaining a high standard of service quality.

The service technicians at Schmitz Cargobull Mobile Service are qualified specialists who have trained either as skilled workers or master craftsmen in automotive and commercial vehicle mechatronics and electrical systems. In addition, they have undergone specialist training in refrigeration and air-conditioning technology and are trained in the company's products through intensive courses run by Schmitz Cargobull. The technicians have access to a wide range of data and information, manuals and repair guides, ensuring they are always as well-informed and prepared as possible. With Schmitz Cargobull Mobile Service franchise model, we offer anyone wishing to take the step towards self-employment the opportunity to benefit from an established brand and comprehensive support. We will support you every step of the way so that we can make a successful start together.
