

New: 100-% SMART Ex Works

The TrailerConnect® Telematics System is on Board of every S.CS SMART Curtainsider Semi-Trailer

All S.CS curtainsider semitrailers are equipped with **TrailerConnect®** telematics as standard. You have immediate access to the **telematics portal** and the **appsbeSmart** and **beUpToDate** from Schmitz Cargobull.

Your benefits include:

- **Efficient fleet management** with real-time information on the actual state of the fleet for your planning.
- **Intelligent dispatching** that optimizes tours and on-time delivery while avoiding empty runs.
- **Increased trailer availability** - proactive maintenance minimizes downtime and breakdown.
- **Reduction of process costs** for trailer utilization and personnel deployment.

The Trailer Company.

One-Stop Solution Premium-Services from Schmitz Cargobull

S.CS UNIVERSAL Curtainsider Semi-Trailer The Economical and Reliable Transport Solution

Benefits at a Glance:

- 100% SMART - TrailerConnect® telematics CTU is standard ex works. Hardware and basic service can be used immediately
- Rolled, galvanised MODULOS chassis - easy to maintain with a 10-year warranty against rust-through
- Tyre pressure monitoring by TrailerConnect® immediately possible - if sensors* are mounted on the tyre
- ROTOS running gear with 1,000,000 km or six-year warranty (excluding wearing parts)
- The EcoGeneration, the EcoFIX and EcoFLEX save fuel and CO2 with their aerodynamically optimized body*
- Body strength certified to DIN EN 12642 Code XL, optionally with beverage certificate and DL Directive 9.5
- Industry-specific transport solutions with time-saving and flexible load-securing system
- POWER CURTAIN* fully certified: for DIN EN 12642 Code XL with beverage certificate and DL Directive 9.5* and - new - with additional equipment certified for tyre transport*

Subject to change without notice. Illustrations partly with optional equipment.

S.CS-UNIVERSAL-FLY-DEIGB-10558-3622

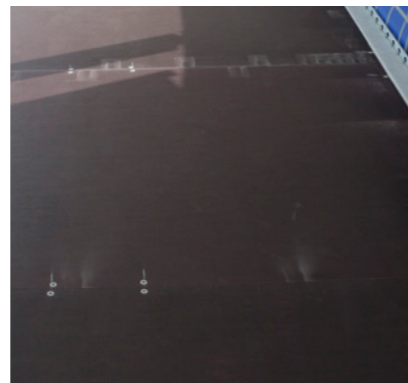

* Option

Integrated ram protection: riveted door hinges are better protected by the roller profiled corner supports at the rear

The lightweight and aerodynamically shaped storage box* ensures optimized airflow and contributes to further fuel savings. The large storage space offers room for pallets, spare wheels, etc.

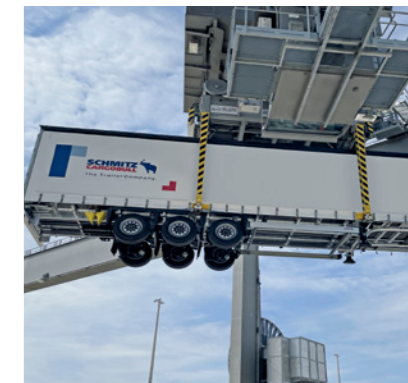

Glued floor combines a longer service life and improved watertightness with a higher stacker axle load of 7.5t

LED interior lighting* for more occupational safety.

Ramp package Rear package protects rear portal and head frame from damage during loading. It consists of reinforcement of the head frame in the chassis as well as delta steel ramp bars and compressible roller ramp buffers.

Combined transport*: Standard-compliant gripping edges enable vertical handling.

TIR equipment

Tyre-certificate

TrailerConnect® Telematics System

CTU hardware, activation and basic contract ex works included**

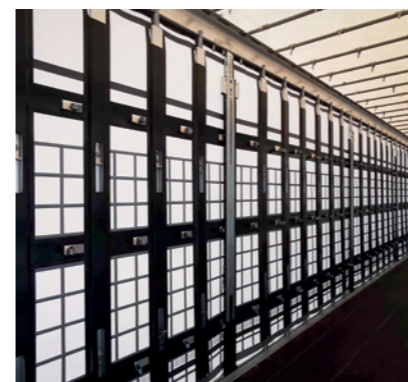

Rolled MODULOS chassis: corrosion resistant and repair-friendly design, thanks to bolted, hot galvanized technology.

ROTOS axle with reliable braking effect through 430mm discs, with intelligent air cooling at the axle head.

Integrated tyre pressure control system: the correct tyre pressure reduces tyre wear and lowers fuel costs due to better roll resistance.

Combined transport*: Standardized gripper edges allow vertical handling.

POWER CURTAIN: body without support laths for shorter loading and unloading times and greater work safety.

SPEED CURTAIN: instant access to the freight – without compromising the strength of the body
