

The S.BO MULTI dry freight semi-trailer

# The flexible solution for dry freight transport

Whether palletized goods, general cargo, or hanging garments – the S.BO MULTI dry freight semi trailer offers maximum flexibility for a wide range of transport requirements. The standard double-deck equipment for Euro pallets in combination with keyhole plates ensures efficient use of space and secure loading.

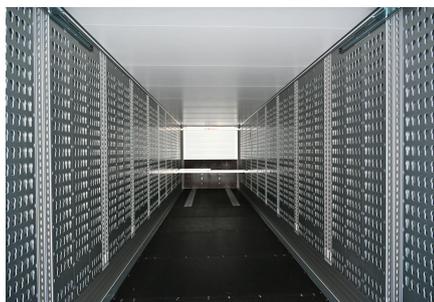

# Why is the S.BO MULTI the perfect fit for you?

More capacity, more safety, more efficiency: the double-deck system allows for up to 33 additional Euro pallets. Robust keyhole plates ensure flexible load securing.

**Robust construction for maximum safety and durability**

The double-walled steel side wall of the S.BO MULTI offers high stability and protection for your goods. Galvanized keyhole plates enable flexible load securing and are particularly corrosion-resistant. This keeps your cargo safe, even under heavy use.

**Maximum flexibility and loading volume for a wide range of requirements**

The modular system allows for individual configuration of the body and chassis. With body heights of up to 2,900 mm and an interior volume of 97 m<sup>3</sup>, you benefit from maximum flexibility and a large cargo volume.

**Intermodal use: Seamless transition between road and rail**

With optional DB equipment, the S.BO MULTI is optimally equipped for rail transport and meets all requirements for intermodal transport. This allows you to benefit from maximum flexibility and sustainable logistics.

# The S.BO MULTI: Flexible, versatile, and safe.

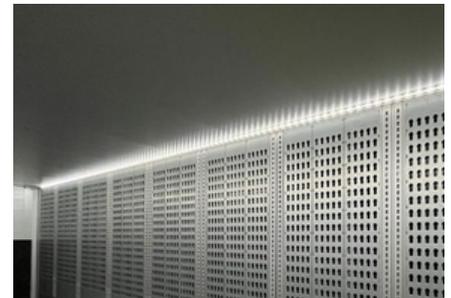

Quality is our top priority for all components we install in the S.BO MULTI dry freight semi trailer. Our goal is economical use over a long service life and high value retention.

Optional **Schmitz Cargobull roller door** for efficient loading and unloading: The lightest roller door on the market with XL certification in accordance with EN 12642 (payload up to 27 t).

**Keyhole plates and versatile securing elements** such as beams, straps, nets, and clothes rails guarantee secure holding—for a wide variety of freight types.

**Extra bright LED interior lighting** along the entire length of the vehicle on one or both sides for better visibility inside.

## Versatile

- Security-related cargo
- IT and electronic devices
- Event and concert equipment
- Hanging garments
- Dry cargo, general cargo, and much more

on the equipment

Standard **double-deck system** (2 tons per row) for flexible and secure load securing: up to 67 pallet spaces.

**Rolled MODULOS chassis:** Corrosion-resistant and easy to repair thanks to galvanization and bolt technology.

The **ROTOS axle** with intelligent air cooling at the axle head provides reliable braking performance.

# Dry cargo transport – flexible and well thought out.

As a strong partner for your success, we provide you with transport solutions and services you can rely on for greater cost-effectiveness, efficiency, and transparency in your fleet and along the supply chain.

Ab Werk in jedem  
**S.BO MULTI**

**TrailerConnect® telematics** provides you with real-time data for greater transparency and efficiency in your fleet and supply chain. The **TrailerConnect® portal** allows you to centrally manage all telematics data for your fleet—across all manufacturers—on a single platform.

**Proactive Monitoring** for trailers allows you to plan maintenance appointments in advance and ensure maximum uptime.

The **TrailerConnect® tire pressure monitoring system** with auto-location assigns the integrated sensor to the correct tire position. The sensor learns independently and records tire pressure and tire temperature data.

This means efficient fleet management, intelligent dispatching, higher trailer availability, and effective processes.

## Service Contracts

Increase your uptime, create cost transparency, and reduce your workload with **service contracts\*** for trailers and tires.

You can count on that:

## Schmitz Cargobull premium services and the expert partner network.

Customized financing and insurance from industry professionals

Spare parts that pay off, for repairs at fair market value

Order original spare parts online, delivered within 24 hours

24-hour Cargobull Euroservice breakdown assistance throughout Europe

Full service for trailers, refrigeration units, and tires

1,400 service partners – your specialist workshop network

Second Hand – First Class  
Used items in tested quality
