

MyCargobull

The MyCargobull customer portal at a glance

With MyCargobull, you always have all the relevant data and documents for your service contracts at your fingertips. Whether vehicle status or maintenance schedules – our portal provides you with all the information you need in real time to make informed decisions and optimise the management of your fleet. Thanks to the user-friendly interface and intuitive navigation, you will quickly find your way around and can get started straight away.

The advantages:

Intuitive and easy-to-understand user interface

Detailed log of past enquiries and repairs

All information about the vehicles bundled in one portal at a glance

Efficient planning of repairs & maintenance

MyCargobull includes:

Management of service contracts

- Detailed view of concluded service contracts & contractual framework data.

Maintenance management

- All upcoming and past maintenance of the vehicle fleet in one overview.
- Automatic notifications about upcoming maintenance dates.

Service Partner search

- Selection of Service Partners according to location and expertise.

More information

- Access to vehicle orders, technical information and spare parts orders.

Additional features:

- **MyCargobull** is your platform for modern and future-orientated logistics.
- **One login, many possibilities: With your Schmitz Cargobull user ID, you can access all digital services.**
- The **free** portal is available in **18 national languages**.
- The MyCargobull portal is available 24/7, including the mobile version.
